# Cytometry Tubes

Made up of crystal clear polystyrene, These tubes are high quality round bottom tubes for the ease of use, reliability and versatility. These tubes are manufactured in our state-of-the-art manufacturing facility to meet rigorous quality standards. The tighter dimensional tolerances provide assurance for consistent reproducible performance in your assays.

**12 X 75 MM TUBES OF 5 ML CAPACITY**

## Product Features

Ideal for protocols  
in cell isolation and  
flow cytometry

Manufactured in human touch  
free class 100K clean room from  
US FDA approved raw material

Dual snap cap for  
culturing and storage  
application

Certified DNase, RNase,  
Endotoxin, Pyrogen &  
Human DNA free

Withstand G - Force  
up to 4000g

Clear & transparent  
surface which doesn't  
hinder photometry reading

Adaptable to  
wide range of flow  
cytometry instruments

5ml Polystyrene  
tubes with Cap

# Ordering Information

Cat. No.	Description	Unit / Pack	Quantity/Case
AC-T	Flow Cytometry Tubes, Round Bottom 5 ml Tube without Cap	125 / Pack	125 X 4
AC-C	Flow Cytometry Tubes, Caps for 5ml Tube	125 / Pack	125 X 4
AC-TC	Flow Cytometry Tubes, Round Bottom 5 ml Tube with Snap Cap	125 / Pack	125 X 4
AC-TC-S-W	Flow Cytometry Tubes, Sterile - Round Bottom 5 ml Tube with Snap Cap	Individually Packed	500
