Jr. Pipette

Research indicates that laboratories are in need of a compact, quick and effortless pipetting device that can help them perform small tasks with utter ease. Moreover even small laboratories and college labs cannot afford to buy specialised equipment for training & experimenting purposes.

The Jr. Pipette is a device born out of that need. The company takes a holistic approach to product development by engaging in extensive research about user data which informs the design of the pipette. The result are pipettes that deliver exceptional performance in a compact package with great ergonomics for a great user experience.

Product Features

Compact Working Size Of
130 Mm Ensures Fatigue
Free Operation

Specially Designed Tip Cone
For Both - 10 μ l & 200 μ l
Tips To Ensure Convenient
& Effortless Usage.

Fully Autoclavable
Body Makes It Easy
To Sterilize

Stainless Steel Piston
For Reliable Performance
And Years Of Durability.

Calibrated As Per En
Iso 8655-6 Standard To
Ensure Relentless
Precision & Accuracy

Two Step Plunger
Operation Allows
For "Reverse Pipetting
Technique

Endless Customization In
Terms Of Any Volume Between
2 μ l To 200 μ l And Color
Combination For Supply
Under Private Label

Available In Different
Volume Range
From 5 μ l To 200 μ l

Ordering Information

Jr. Pipette				
Cat. No.	Volume Range (µL)	Test Volume	Inaccuracy (±) %	Imprecision (±) %
AJ-5	5	5	1.3	1.2
