# Tips

Quality and purity are of the utmost importance when it comes to using tips in laboratories and clinics as it has a huge impact on the final outcome of your work. But, in today's market, most profits come before quality which results in a less-than-satisfactory experience for the customer. Most of the tips manufacturing companies around the world produce tips in open environment with very little access control. Also, they utilize reprocessed material which not only decreases transparency but also affects other aspects of quality.

With a superior manufacturing infrastructure that boasts of a fully automatic human touch-free manufacturing

plant with clean room class 100K is the gold standard when it comes to purity and quality in manufacturing of Tips. Using state-of-the-art manufacturing techniques and raw materials and sticking to established standards, every batch of Tips that leaves the manufacturing assembly speaks volume about our impeccable manufacturing infrastructure and stringent quality control process.

As a result, these high-quality Tips are certified to be free from all affecting biological elements such as DNase, RNase, Endotoxin, Pyrogen and ATP.

## Product Features

World-class Infrastructure  
And Facility For Tips & Tubes  
Manufacturing

Swiss-made Diamond  
Finish Mold For Flawless  
"Super Smooth"  
Internal Surface

Non Cytotoxic

US FDA Approved Medical  
Grade Virgin Polypropylene  
Plastic Without Any Trace Of Metals.  
Highly Transparent And Clear

Certified DNase, RNase,  
Pyrogen, Endotoxin, Human  
DNA & PCR Inhibitor Free.

## Product Features

Special Orifice Design  
Prevents DNA  
Denaturalization

---

All Tips Have Graduation  
Marks Which Act As Visual  
Checks To Minimize Any  
Risk Of Errors During  
Sample Aspiration

---

Designed to be  
adaptable with a  
wide range of pipettes

---

Low Retention Tips.  
Free From Any Softening  
Agents Which Could  
Influence Sample Results

---

Specially Developed PE Filters  
Stop Aerosols & Contamination  
From Entering Into Pipette  
And Thus Lessens The Risk  
Of Cross-contamination

---

Multiple Packing  
Options - Rack,  
Bulk & Reload

---
